Program Information

Target Audience

This meeting is designed for academic anesthesiologists in Chair, Core Residency Program Director, Subspecialty Fellowship Program Director and Residency Program Administrator positions. Members may invite physician and non-physician guests. The program is designed to present and discuss areas of topical interest to attendees in keeping with our collective attempt to improve academic anesthesiology departments' structure, function and the educational programs.

About This Meeting

Topics for this meeting were selected by various methods. Suggestions for topics were derived from evaluations of the 2022 and other previous Annual Meetings, Council members, the membership at large and reviews of the published literature with the highest impact on the anesthesia specialty. These suggestions were discussed by our authorities in the field of anesthesia education or previous meetings.

The purpose of this Annual Meeting is to educate and share information that will enable academic anesthesiology departments to improve management and care.

Registration

The registration fee for the SAAAPM 2023 Annual Meeting includes the course syllabus, all educational presentations, continental breakfasts, coffee breaks and Friday reception. There is a separate fee for lunches. Registrations that are either faxed, mailed, or made via the website to the SAAAPM office must be received by October 2, 2023.
